Protecting your home

Protect your home and family with quality grille security door and window screens that provide a visual deterrent and effective protection against uninvited guests entering your home. Home owners can have peace of mind knowing that the security grille they choose is of the highest standard available in Australia today.

There's no need to compromise your security on a warm summer's day either.

Our grille security products provide the best of both worlds - plenty of fresh air and peace of mind. So when buying your next security window or door be sure to ask if it's a Capral Aluminium supplied product.

The grille has been tested in the most extreme circumstances and is worthy of protecting your loved ones. Our security grille should be the only thing between you and an unwelcome visitor.

Grille Designs

Our Capral variety of grille designs and frames suit the demands from barrier to security doors.

Security grilles are available in a variety of styles and powdercoat colours to suit your home decor requirements without compromising your look.

All Capral Aluminium supplied grilles have been tested to conform to AS 5039 and AS 5041 which are the Australian Standards for the security products industry.
